

doorFRESH

Air freshening when and where you need it most!

Scalable odor control for any restroom.

1 Brain by the door + 1 drone for each stall.

Use the Brain at the entrance door and place 1 Drone in each stall at the odor source. The Brain's replacement system tells you when to replace both the Brain's and the Drone's air fresheners. Layered fragrances provide unparalleled performance for the restroom at low-cost.

Effective

The unique design uses airflow created by doors. The more the door moves, the more fragrance is released. Gradually releases more fragrance than gels or metered aerosols over 30 days. Creates a great first and last impression in any restroom.

The last dispenser you will ever hang!

Lifetime guarantee on the Brain. Register it...if it ever stops working, we replace it...FREE! Go to www.freshproducts.com, click on *Door Fresh registration*.

Easy to maintain

The Brain reminds you when to replace its refill with an LED reminder starting on day 30, and an audible alert that begins on day 34.

Eco Friendly

Each refill is 100% recyclable. Place refills in a recycling bin or send them back to Fresh. Refills and power packs are both part of the free closed loop recycling program - check out www.eco-refresh.com for details.

The Drone

The Brain
