

Drowsy driving causes 13% of accidents

65% of truck drivers report often feeling drowsy. (FMCSA)

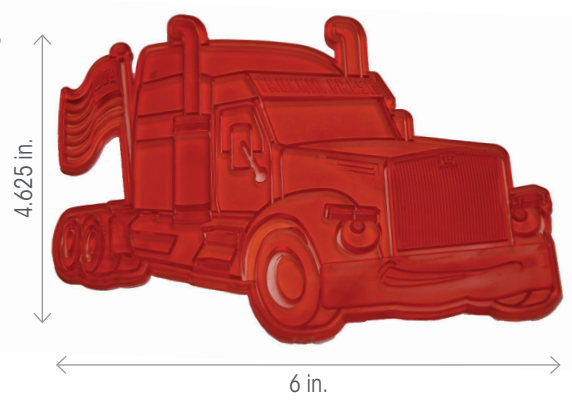

Nearly 50% of truck drivers admit to **actually falling asleep** while driving. (FMCSA)

Truckin Fresh may be the solution!

Truckin Fresh releases a fragrance shown to promote wakefulness, or, what the academics call **human vigilance!**

Simply open the bag and place the **Truckin Fresh** under a seat. The fragrance does the rest of the work for a full 30 days.

The cab smells great and the driver may have a little help staying alert.
